

THE MATTRESS MAKER'S CRAFT

Thank you! You have just made an excellent selection in sleep products. We have invested years of experience and research to bring you a good night's sleep for many years to come.

THE MATTRESS IS ONLY HALF OF THE STORY. To obtain maximum life and support, your sleep product was designed as an integrated system to provide sleeping comfort and maximum product life. The box spring is just as important in providing for your good night's sleep as your new mattress

ROUTINE CARE. Turn your mattress periodically. The soft cushioning materials in your mattress are designed for comfort. To obtain maximum life, the mattress should be turned quite frequently through the first three months of use. After this initial break-in period, turning once a month should insure maximum life and comfort.

Wolf Limited Warranty
